IDHSNA Inspection Services Application

2018

A limited number of Inspection Services *may* be available after sites are determined and based on availability of inspectors' time and facility space at each site. Full inspections will take precedence. Applications for Inspection Services may be submitted at any time and without payment. The registrar will contact owners requesting Inspection Services once availability has been determined and based on the order the application was received. Prompt payment at that time will secure the service.
